Dear colleagues,

The 2019 series of e-learning courses from EuroSDR is now open for registration: <u>http://www.eurosdr.net/education/course/eduserv17-2019</u>.

Topics of four e-learning courses will be introduced during the seminar hosted by the Cartographic and Geologic Institute of Catalunya, Barcelona, Spain, from 4th to 5th March 2019. Two-week e-learning courses are scheduled from March to June 2019.

- Automatic Topographic Mapping through Description and Classification of Remotely Sensed Imagery and Cartographic Enhancement (11 - 22 March 2019) Tutors: Joachim Höhle (Aalborg University), Sébastien Lefèvre & Bharath Bhushan Damodaran (IRISA/Université Bretagne Sud)
- 3D Sensing, Scene Reconstruction and Semantic Interpretation (1 12 April 2019) Tutors: Martin Weinmann & Boris Jutzi (Karlsruhe Institute of Technology), Michael Weinmann (University of Bonn), Franz Rottensteiner (Leibniz Universität Hannover)
- Open Spatial Data Infrastructures (6 17 May 2019)
 Tutors: Joep Crompvoets (KU Leuven), Bastiaan van Loenen (TU Delft)
- Deep Learning for Remote Sensing (3 14 June 2019)
 Tutors: Loic Landrieu (IGN France), Sébastien Lefevre (IRISA/Université Bretagne Sud), Bertrand Le Saux (ONERA)

EduServ courses can be followed over the Internet from any location and require about thirty hours of online study.

Course fees are: €600 for 1 or 2 courses, and €700 for 3 or 4 courses (participation at the precourse seminar is included). Fee for attending **only** the seminar: €100.

For more information and updates, visit our website: <u>http://www.eurosdr.net/education/current</u>.

We hope to welcome you at our 2019 series of e-learning courses.

Kind regards,

Markéta Potůčková, Ph.D. on behalf of the EduServ team
