Published by the Committee of the 16th International Congress of International Society for
Photogrammetry and Remote Sensing

Publié par le Comité du 16^e Congrès International de Société Internationale de
Photogrammétrie et de Télédétection

Herausgegeben von dem Komitee für den 16 Internationalen Kongress der Internationale
Gesellschaft für Photogrammetrie und Fernerkundung

COMMISSION VII

Interpretation of Photographic and Remote Sensing Data

AUTHOR	TITLE	PAGE
Abe, K., Ogata, S.	Observation of the Bo-hai, China by NOAA/AVHRR and MOS1/MESSR	1
Akiyama, T., Shibayama, M., Yamagata, Y.	Crop Growth Diagnosis from Low Altitude Platform-Sensor Systems	11
Albota, M.	Tourist Aerial Photointerpretation	21
Axelsson, S.R.J.	On Soil Moisture Mapping Using IR-Thermography	27
Axelsson, S.R.J.	On the Estimation of Energy Losses from Municipal Heating Networks by Using IR-Thermography	39
Barsch, H., Weichelt, H., Söllner, R., Marek, K.-H.	Zur Kennzeichnung Agrotechnischer Geosysteme mit Hilfe Spektraler Signaturen	49
Chen, S.C.	Sampled LANDSAT Data for Crop Area Estimations	59
Cheng, C.	Effect of Spatial Transformations on the Accuracy of Supervised Classification	64
Chiao, K., Chow, C.	Comparison among Selected Landsat-5 TM Data for Forest Surveys	77
Clevers, J.G.P.W., Heijden, G.W.A.M., Swan, D.L.C.B.	Mapping the Heterogeneity of Agricultural Fields by Means of Aerial Photography	90
Clevers, J.G.P.W.	The Application of the Weighted Near-Infrared - Red Vegetation Index for Estimating LAI at the Vegetative and Generative Stage of Cereals	98
Cracknell, A.P., Ibrahim, M.	Mathematical Modelling to Estimate the Contribution to the Radiance due to Scattering from Turbid Water : Case Study - Landsat MSS Data over the Tay Estuary	108
Cracknell, A.P., Khattak, S., Vaughan, R.A.	Sunglint in AVHRR Data and the Determination of Near Surface Windspeeds	118
Cracknell, A.P., Huang, W.G.	Satellite Measurements of the Surface Currents and the River Shannon Outflow Plume Movements off the West Coast of Ireland	125

Cracknell, A.P., Saraf, A.K.	Improvement of Geological Mapping in North- West Scotland	132
Egawa, H., Kusaka, T.	Region Extraction in SPOT Data	142
Ehlers, M.	Multisensor Image Fusion Techniques in Remote Sensing	152
Elman, R.I., Bodanski, E.D.	Joint Automated Processing of Aerial Space and Cartographic Information about Forests	163
Erasmus, P.F., Fourie, C., Malan, O.G., Scheepers, L.G.C.	Generation of Objective Urban Land Use Maps of the Johannesburg Area by Semisupervised Spectral and Special Choropleth Classifications of SPOT and Landsat TM Data	168
Ernst, W.R.L.	Age Estimation of Radiata Pine (Pinus Radiata D. Don) with Landsat Images	175
Fukue, K., Shimoda, H., Matsumae, Y., Yamaguchi, R., Sakata, T.	Evaluations of Unsupervised Methods for Land- cover/use Classifications of Landsat TM Data	180
Gangodawila, C.D.	Monitoring Land Use Change in Rural Sri Lanka from Sequential Aerial Photography	195
Gomi, Y., Yamamoto, H., Sato, S., Ishiguro, S.	Estimate of the Amount of Gravel Content in the Soil by Airborne MSS Data	205
Hase, H., Miyazaki, Y.	Geothermal Resources Map Aided by Remote Sensing Data	212
Hirosawa, H.	Discussions on a Phenomenon That Forest Edges Do Not Accompany Radar Shadow in L-Band Airborne SAR Images	222
Hu, R., Yang, S.	Applications of False-Coloring of Black and White Imagery by Optical Density Encoding Techniques	230
Kadro, A.	Use of Airborne MSS and Landsat-TM Data for Monitoring and Forest Decline Inventory	238
Kahru, M.	A Comparison between the Variability Structure of the Remotely Sensed Sea-Surface Temperature and Pigment Distributions	252
Karathanassi, V.G., Rokos, D.KL.	Un Essai d'Inventaire de l'Occupation du Sol dans la Region d'Agrinio(Grece) a l'Aide d'Images SPOT	261
Kawata, Y., Ueno, S.	Basin Streamflow Estimation Using the Landsat Data and Its Application to Optimum Control of Dam Water Level	271
Kishi, S., Ohkura, H.	Detection and Mapping of the Disaster- Stricken Areas from LANDSAT Data	278

Koshiishi, H., Naka, M., Yamamoto, H., Matsumoto, K., Homma, K., Matsumura, S., et al.	A Study on Information Analysis Aids for Sea Surface Temperature Image Data	288
Kuittinen, R.	Determination of Snow Water Equivalents by Using NOAA-Satellite Images, Gamma Ray Spectrometry and Field Measurements	294
Kumaki, Y.	Natural Environment Research of Coastal Sea Area from the Air	304
Kuntz, S.	Checking Computer Classifications on Forest Decline Inventory	313
Kurkdjian, M.L.N.O.	Homogeneous Photographic Texture: An Instrument to Identify Different Urban Population Segments	324
Liang, F., Zeng, Q.	Characteristics of Surficial Brightness Temperature and Reflective Spectrum in Sporadic Permafrost Region	333
Lin, S., Pan, D., Zhang, G.	A Result of Measurement of Atmospheric Parameters from Ground for Marine Remote Sensing	342
Ljungberg, S.-A., Rosengren, M.	Aerial and Mobile Thermography to Assess Damages and Energy Losses from Buildings and District Heating Networks - Operational Advantages and Limitations	348
Lokk, J., Pelevin, V., Solomakha, V.	Interpretation of Remote Sensing Data from Eastern Areas of the Baltic Sea	360
Mori, M., Gotoh, K.	Statistical Analysis of SPOT HRV/PA Data	366
Morimoto, K., Yoshinaga, K., Setojima, M., Shibata, K.	An Attempt of Suitable Land Selection for Regional Agricultural Development Using Remote Sensing Data and Geographical Information	374
Mukai, S.	Atmospheric Correction of NIMBUS-7 Data Based on the Multiple Scattering Calculation	384
Murai, S., Tanimoto, C., Matsumoto, Y., Nagata, K.	Development of Borehole Scanner for Underground Geological Survey	391
Novo, E.M.L.M., Godoy Jr., M.	Multiviewing Linear Models for Estimating Suspended Sediment Concentration (SSC) from Remotely Sensed Data	396
Oprescu, N., Borduselu, C.	An Improving Multispectral Recording Set Analysis Method	406

Örmeçi, C.	The Importance of the Selection of the Training Areas at the Maximum-Likelihood Classification	416
Oshima, T., Emori, Y., Yasuda, Y.	Automatic Road Selection from LANDSAT Data	423
Oyama, Y., Setojima, M.	Examples of Analysis of Aerial Photographs and Geographic Information System for Surveying Disasters	433
Pavate, T.V.	Efficacy of Monitoring of Urban Development with the Use of Remote Sensing Techniques	441
Pereira, M.N., Kurkdjian, M.L.N.O., Foresti, C.	A Method for Urban Growth Evaluation Using LANDSAT Data	446
Rikimaru, A., Kamiyo, M., Oshima, T.	A Study Extracting Information on Ground Objects from Characteristics of Space Thermal Distribution	452
Rokos, D.KL.	Cybernetics and Remote Sensing Methodology A Dialectic, Interdisciplinary and Integrated Approach	460
Sato, K., Hoshi, T.	Approach to Estimation of Mangrove Resources Using Remote Sensing and a Trial in Okinawa	470
Schwenzfeger, K.J.	Interpretation of ERS-1 Windscatterometer Data: Wind Field Extraction	482
Sekiguchi, T., Akiyama, M., Koido, K., Sasajima, H.	Methods to Supplement Insufficient Ground Survey Data for Land Cover Classification	498
Shibayama, M., Wiegand, C.L., Akiyama, T., Yamagata, Y.	Radiometric Predictions for Agronomic Variables of Rice Canopies Using a Visible to Mid-infrared Spectroradiometer	508
Shikada, M., Miyakita, K., Haba, Y.	On a Conversion of Airborne MSS Data into Reflectance by Using a Simulation Model	518
Shimabukuro, Y.E., Haertel, V.F.A., Smith, J.A.	Landsat Derived Shade Images of Forested Areas	534
Shimoda, H., Kasai, Y., Yamaguchi, R., Fukue, K., Sakata, T.	Effects of Spatial Resolution to Landcover Classification Accuracies for SPOT HRV and LANDSAT TM Data	544
Shu, N.	The Realizations of the Grasslands Classification Principles in Computer Processing for the Grasslands Resources Investigations	554

Singh, R.	Use of Remotely Sensed Data for Yield Estimation Surveys	564
Sukhikh, V.I., Isaev, A.S.	Aerial Space Monitoring of Forest Resources	569
Takahashi, Y.	The Survey Method by Using Aero-Video Data and Its Application	579
Takahashi, Y., Suwabe, K., Hirono, K.	The Estimation of Snow Depth Distribution by Satellite Data	585
Takahata, S., Risman, S.	Introduction of the Remote Sensing System in the Tropical Rain Forest Research Institute, Indonesia	589
Takeuchi, S., Tomita, T.	Evaluation of Some Spectral and Spatial Features of Satellite Images Using Airborne MSS Data for the Analysis of Urban Area	599
Tanaka, K., Matsumoto, Y., Takaba, M.	Application of Remote Sensing to Benthic Marine Algae Monitoring	607
Tsuchida, S., Yamaguchi, Y., Hase, H.	Investigation of Lineaments from Remote Sensing Data	619
Tsuchide, M., Sato, H.	Observation of Submarine Volcanic Activities at the Kaitoku Seamount and the Hukutoku-Oka-no-Ba Seamount by the Airborne Thermal Infrared Radiometer	629
Uchida, S., Hoshi, T.	On the Regional Characteristics of Actual Evapotranspiration Derived from LANDSAT MSS and Elevation Data	641
Ueno, S., Kawata, Y., Kusaka, T.	Comparative Analysis of Landsat-5 TM and SPOT HRV Data in Kanazawa Region	651
Utsunomiya, Y.	Soil Moisture Estimation Based on Thermal Inertia from Airborne MSS Measurements	663
Vanouplines, P.I.	The Application of an Atmospheric Correction and Chlorophyll Algorithm on a TM Image of Central Lake Tanganyika : Techniques and Observations	673
Wang, P.	Application of Landsat TM Data into Regional Exploration of Lead-Zinc Deposits	681
Wei, X.	Analysis of Thematic Mapper Satellite Data for Inventorying Field Crops in New York	690
Wiegand, C.L., Hatfield, J.L.	The Spectral-Agronomic Multisite-Multicrop Analysis (SAMMA) Project	696

Yamagata, Y., Wiegand, C., Akiyama, T., Shibayama, M.	Flood Inundation and Rice Crop Damage Analyzed by Multitemporal TM Data	707
Yamaguchi, Y., Sato, I., Ohkura, T.	Development of a Field Radiometer as a Ground Truth Equipment for the Japanese ERS-1	718
Yang, P., Wang, L.	Application of Aerial Side-Looking Radar Imagery in China	728
Yokoyama, I., Deguchi, C., Numata, M., Matsuo, K.	Classification of Land-Cover Based on Statistical Verification	737
Zelek, J.S., Paine, S., MacDonald, P., Hawkins, D.	FEX: Automatic Planimetric Feature Extraction	746
Zhang, R.	A Role Played by Airphoto Scale during the Transmission of the Geographic Information	756
Zhang, X., Liu, Y.	Studies on the Compilation Method of Afforestation Site Map at a Scale of 1:100000 in Pin Quan County China	768
Zhang, Z., Shimoda, H., Fukue, K., Matsumae, Y., Sakata, T.	New Classification Algorithm Using Spatial Information for High Resolution Image Data	778
Zou, S.	Study of Modern Vicissitudes of the Jiangnan Lake Groups by Using Remote Sensing Techniques	786
