THE INTERNATIONAL ARCHIVES OF PHOTOGRAMMETRY (AND REMOTE SENSING, since 1980)

have been founded by Eduard Doležal in 1908 with the objectives to collect all photogrammetric and related know-how systematically. The volumes I-VII (1908/09, 1909/11, 1911/13, 1913/14, 1915/19, 1919/23, 1924/30) have or had its repository in Austria. Volume VIII's repository is the ITC in the Netherlands, Volume IX's is the USA. From 1939 to 1993, the publication and distribution was the responsibility of the hosting ISPRS Member organisation. Some of these **Archives** are still available from the ISPRS Member of the respective country. A copy of all **Archives** resides in the International Training Centre (ITC) in The Netherlands. In 1993, ISPRS signed a contract with RICS Books to serve as the official repository for post-Congress and post-Symposia sales of all **Archives** produced after 1993. This arrangement was designed to make the **Archives** more accessible from a single source without diverting revenues from the producing organisations.

The **Archives** are now numbered odd for the Congress Volumes and even for Commission Symposia. Volume Parts are given the Commission number, if applicable, and are separate books. When a Volume or Part is composed of multiple books, the number of total books of the Volume or Parts is given in parentheses below. Parts for other ISPRS Conferences, Workshops or Tutorials have the Commission number followed by a C, W or T respectively and a sequence number.
