## ISPRS Council 1992 - 1996

President	Shunji Murai	Japan
Secretary General	Lawrence W. Fritz	USA
Congress Director	Karl Kraus	Austria
Treasurer	John Trinder	Australia
First Vice President	Kennert Torlegard	Sweden
Second Vice President	Armin Grün	Switzerland

### International Archives of Photogrammetry and Remote Sensing (IAPRS)

Founded bei Eduard Doležal (Austria) in 1913.

#### Volume XXXI, Part B2

Invited and Presented Papers of the XVIIIth Congress, Vienna, Austria, July 9 to 19, 1996.

### Technical Commission II Systems for Data Processing, Analysis and Representation

President	Mosaad Allam	Canada
Secretary	Gordon Plunkett	Canada

In cooperation with Working Group Chairpersons responsible for the reviewing of extended Abstracts and acceptance of contributions. Authors delivered camera ready manuscripts and selected the keywords.

#### Editorial Team

Chief Editor	Peter Waldhäusl	Austria
EDP-Software	Heinrich Vesely	Austria
EDP-Processing	Hans Thümingner	Austria
Technical-Assistance	Ulrike Pachowsky	Austria
	Josef Tschannerl	Austria
	Eva Berkes	Austria

#### Copyright 1996

by Austrian Society of Surveying and Geoinformation (ASG) on behalf of ISPRS, and by each author for his part. Responsible for the content according to Austrian Press Law / Für den Inhalt presserechtlich verantwortlich:

Prof. Dr. P. Waldhäusl  
Technische Universität Wien  
Institut für Photogrammetrie und Fernerkundung  
Gußhausstraße 27 - 29 / 122  
A-1040 Wien

Printing: Druckerei Berger, Horn

#### For Sale after the Congress

Copies of individual parts and complete series may be obtained from:

RICS Books  
Surveyor Court  
Westwood Way  
Coventry CV4 8KE U.K.  
Fax: +44 71 334 3800

## ISPRS Commission II

### Systems for Data Processing, Analysis and Representation

#### Foreword

During the period of 1992 - 1996 responsibility for Technical Commission II - Systems for Data Processing, Analysis and Representation - of the International Society for Photogrammetry and Remote Sensing resided with Geomatics Canada. Under the Commission, five Working Groups, one Inter-Commission Working Group and one Special Topic were active in promoting research and activities in the following areas:

- \* Real-time mapping technologies;
- \* Hardware and software aspects of GIS;
- \* Technologies for large volumes of spatial data;
- \* Systems for the processing of RADAR data;
- \* Integrated production systems;
- \* Digital photogrammetric systems; and
- \* Upgrading photogrammetric instruments.

Commission II held its Technical Symposium in Ottawa, Canada from June 6 - 10, 1994 in conjunction with the Sixth Canadian Conference on GIS. Under the theme "a Shared Vision", the meeting provided an excellent technical program that extended over a five-day period.

The recent past has demonstrated that our progress has been driven by advances in technology - GIS, soft-copy photogrammetry, remote sensing, GPS, and information technology (DBMS, communication and networking). It is clear that as technological advances continue they will have a major impact on how systems and information are applied to real world problems. An important aspect of such advances will be measured by degree of integration and communication between systems and data.

The following volume is dedicated to continuing the advancement of systems for data processing, analysis and representation. It represents the hard-work and research of many persons from many parts of the world, who collectively continue the ISPRS tradition of cooperative technological advancement and scientific achievement.

In closing, thanks is extended to all WG chairpersons, co-chairpersons and secretaries of Commission II, who have worked hard over the four years in preparation of the Vienna Congress. Special thanks is also made to our colleagues in the Geographic Information Systems and Service Division, Geomatics Canada.

Dr. Mosaad Allam

President, Commission II

Gordon Plunkett

Secretary, Commission II

Jeff Labonte

Co-secretary, Commission II
