ISPRS is proposing to introduce a printed Book Series comprising high quality scientific contributions in the photogrammetry, remote sensing and spatial information sciences. The overall aims of publishing the series are to promote the scientific output of ISPRS. The title of the series will be ISPRS Book Series in the Photogrammetry, Remote Sensing and Spatial Information Sciences.

The series will be published on a regular basis, comprising two books per year, and include high quality scientific papers on specific themes, or complete works on specialised topics. The papers will not have been published elsewhere in recognised journals and may include revisions of the best papers that have appeared in the ISPRS International Archives of the Photogrammetry, Remote Sensing and Spatial Information Sciences or in proceedings of ISPRS sponsored scientific meetings.

**ISPRS wishes to appoint a Book Series Editor** to manage publication of the ISPRS Book Series. The Series Editor will be responsible for selection of a Book for the Series, appointment of individual Book editors to manage the preparation of each book for publication, maintain continuity of publication, planning, advice and co-ordination, and homogeneity of standards, as well as report his activities and decisions to the ISPRS Council.

An honorarium will be paid.

Applicants interested in this position should send details of their qualifications and experience, especially related publishing to:

**President:**
Prof John C Trinder  
School of Surveying and SIS  
University of New South Wales  
UNSW SYDNEY NSW 2052  
Australia  
Fax: +61 2 9313 7493  
E-mail: j.trinder@unsw.edu.au

**Secretary General:**
Prof Ian Dowman  
Department of Geomatic Engineering  
University College London  
Gower Street  
London WC1E 6BT  
United Kingdom  
Fax: +44 20 7380 0453  
E-mail: idowman@ge.ucl.ac.uk

Applications close 31 August 2002
