

SECOND CALL FOR PAPERS

VIII SURVEYING CONVENTION "AGRIMENSURA 2017"

HAVANA LIBRE TRYP HOTEL, HAVANA. CUBA.

26 - 30 SEPTEMBER of 2017

"THE AGRIMENSURE TO THE REACH OF SOCIETY. CHALLENGES AND OPPORTUNITIES "

The National Union of Architects and Construction Engineers of Cuba (UNAICC), the Latin American Society of Specialists in Remote Sensing and Space Information Systems (SELPER), the Society of Geosciences and Chemistry, the Hydrographic, Geodesy and Surveying Technical Commission and Remote Sensing and the National Survey Commission of the Project Front, organize the 2017 Surveying Convention, from September 26 to 30 at the TRYP Habana Libre Hotel.

In the framework of the convention there will be several congresses, meetings, special session for the day of the Cuban Topographer, the commemorative session for the 37th anniversary of the USSR - Cuba joint space flight and the Exhibition of products, new technologies and services.

Papers will be selected by the Scientific Committee of the Convention and their acceptance will depend on the quality, novelty and impact of their content, reflected in the abstracts and extensive work, which must be clear and precise with the results to be presented. The date of submission of the abstracts and complete works will be May 19, the works received on the date established, that meet the requirements and are accepted, will be published in the memoirs of the Event.

The speakers must suggest the Event (congress or exhibition of products) where they want to present their work and indicate it in the summary. Oral presentations, posters and exhibitions are welcome. However, the

final modality will be informed to the applicant by the chair of the Scientific Committee, after adjustment of the program, according to the availability of time and space.

The official language of the Convention is Spanish, although not limited to the participation of delegates from countries that speak other languages.

THE CONVENTION INCLUDES THE FOLLOWING CONGRESSES AND EVENTS:

VIII Surveying Congress

- Geodesy / Topography / Geodynamics / Geophysics / Astronomy / GPS.
- Hydrography / Oceanography / Navigation systems.
- Terrestrial laser technology.
- Fleet Control Systems / Precision Agriculture.
- History and conservation of the hydrographic and geodetic heritage created.
- Predictive maintenance / metrology.

VIII Congress of Cartography and Spatial Data Infrastructure.

- Cartography / Digital Mapping / GIS / Geographic Names.
- Spatial Data Infrastructure / Trends in information management.
- BIG spatial data.
- Sensor networks and internet of things.
- Data ecosystems.
- Information Technology and Communications Technologies.
- Quality standards.

VIII Conference on Education for Central America and the Caribbean.

- Professional Training in Geomatic Engineering (Study Programs).
- Pathways, alternatives and experiences in postgraduate activities (graduates, masters, doctorates).
- Virtual teaching.
- Postgraduate training programs, postgraduate courses (doctorates, masters, specializations), training programs in primary and secondary education.
- Preparation of teaching materials using ICTs and Remote Perception for vocational training (books, manuals and software).
- Institutional policies for training in Geomatics.
- Teaching Geomatics from an early age.

- Experiences in the field of Geomatic Education.
- Data generation in applications Geomatics in the field of natural and medium resources environment.
- Institutional and governmental policies for the teaching of Geomatics.

IV Congress of Remote Sensing and Spatial Information Systems.

- Photogrammetry / Remote Sensing / Digital Image Processing.
- Unmanned aerial vehicles.
- Use of aerospace information in studies on Climate Change / Natural Disasters and Health / Prevention / Mitigation / Conservation of the Environment and sustainable management of natural and agricultural resources.
- Use of aerospace information in geological and mining prospecting.
- Space missions. The Nano Satellites.

III International Congress of Estimates and Cadaster.

- Cadaster / Appraisals / Registration and management of real estate and property / Instrumentation and international standards.

III Ibero-American Meeting of Surveyors and Surveyors.

- Academic training, development and professional competence.
- Quality standards.
- Integration, development and perspective.
- The surveying, challenges and opportunities of women and young people.
- Intelligent technologies, impact, challenges, perspectives and sustainable development of professionals.
- Standardization, integration and quality in the training of the engineer.
- Ethical projection and professionalism of the surveyor.
- Professional intrusion.

EXPO FAIR:

The experiences of previous events show the possibilities of participation of companies promoting equipment, services, technologies and accessories for Geomatics, both Cuban and foreign, making a pleasant exhibition and with great business opportunities.

REGISTRATION PAYMENT:

	Registration fee:
Speaker	270.00 Euros - CUC
Delegate No Speaker	300.00 Euros - CUC
Students	90.00 Euros - CUC (Undergraduate students with accreditation)
Companions	100.00 Euros - CUC
Non-Presential Participants	100.00 Euros - CUC
Technical Visit	85.00 Euros - CUC
Pre-congress Course	30.00 euros - CUC

Payment of the registration can be made through the Convention site: www.agrimensuracuba.com, which is recommended for the facilities that are offered without losing money for the application of the tax, which has the american dollar in our country. Also you can pay directly in the place of the Event the day destined for the accreditation. Those who are accredited in the place of the Event will pay the amount in CUC which is the Cuban currency.

Those interested in attending the Convention must fill out a registration form, which includes the necessary data, one registration per person regardless of how many works will present at the Event. The form must be sent by e-mail to silvia@unaicc.co.cu, eloy@unaicc.co.cu.

The inscription or registration can be done through the site of the Convention: www.agrimensuracuba.com
