

Participants can come also with own proposal and topics connected with activities of our commission and as well as topics of Tokyo and Tsukuba workshop.

### Organization of the event

On Saturday July 13 Workshop in Tokyo will be held with kind help of one of the leading surveying and mapping companies **Kokusai Kogyo Ltd.** which will provide their conference room and personally endorsed our event by its Chairperson and CEO Ms. Sandra WU. Keynote presentation on behalf of company will be focused for the role of private sector for tackling disasters.

On Sunday July 14th Workshop will be held in the Museum building of **Geospatial Information Authority (GSI) of Japan**, endorsed by Mr. Shigenobu KAWASAKI, GSI Director General. The keynote will be oriented for the role of GSI in disaster solving activities.

Instructions about transport to both places will be ready on the commission Web page:

<http://map.casm.ac.cn/ewcm/home/>

And in the ICC-2019 and ICA information materials.

### Abstracts

Information about Abstracts formats will be announced on Commission Web page. All abstracts will be blind-reviewed and best of them recommended as papers for high quality and respected journals.
