

遥感信息工程学院
School of Remote Sensing and Information Engineering

Tenure-track and Research Faculty Positions

Multiple tenure-track and research faculty positions at all ranks (chair, full, associate and assistant professors) are available at the School of Remote Sensing and Information Engineering, Wuhan University, Wuhan, China.

The School was founded in 1956 and has become a world-class institution in education and research in photogrammetry, remote sensing, and geographic information engineering. Thousands of its graduates are leaders in industry, academia, and government. To strengthen its well-established reputation and broaden its academic impact, the School is seeking outstanding applicants in the following areas:

- Remote sensing sensors and sensor integration
- Physics and applications of remote sensing
- Computer vision and photogrammetry
- Geographic information science

Applicants for research faculty should hold, at the time of appointment, a doctoral degree in related fields. Applicants for tenure-track faculty should have at least 2-year working experience after Ph.D and be able to teach courses in English at both undergraduate and graduate levels.

Applicants are expected to develop independent research programs in addition and complementary to the existing ones. The School will provide appealing start-up package and relocation compensation. The salary scale is highly competitive and commensurate with the quality and experience of the applicants.

Interested applicants should send their CV, statements on teaching and research interests, up to three (3) representative publications, and contacts of at least three (3) references to Ms. Qin Ping <rsrenshi@whu.edu.cn>, Secretary for Human Resource ASAP or **by October 26, 2014**.
