

Tenure-track or Project Assistant/Associate/Full Professor in Microwave and Radar Remote Sensing or Geographic Information System

The Center for Space and Remote Sensing Research (CSRSR) at National Central University, Taiwan invites applications for one tenure-track or project position in Microwave and Radar Remote Sensing. The position will be filled at the level of Assistant, Associate, or Full Professor and begin in **February 2017**. Successful candidates are expected to demonstrate a commitment to excellence in research and teaching in both undergraduate and graduate levels.

Requirement:

1. Candidates must have a PhD or equivalent doctoral degree in Microwave and Radar Remote Sensing or closely related fields. Desired fields of expertise include but not limited to microwave remote sensing, microwave/radar signal and image processing, the development and applications of synthetic aperture radar for environmental, ecological, electrical engineering and computer science (EM Radiation, Communication Engineering) or earth science studies.
2. Candidates must have a PhD or equivalent doctoral degree in Geographic Information System related fields. Desired fields of expertise include but not limited to design and implementation of Web-based Geographic Information Systems, Geospatial Web, World-Wide Sensor Web and Internet of Things standards or applications.

Qualified applicants should email:

- (1) cover letter and curriculum vitae
 - (2) copy of PhD diploma
 - (3) transcripts of graduate study
 - (4) publication list and reprints of up to five recent publications
 - (5) statements of research and teaching interests
 - (6) three recommendation letters
 - (7) other supporting materials
- Detailed resume may please be sent to degree@csrsr.ncu.edu.tw by **June 30th, 2016**. Please mention the position applied for in the subject.
- Only shortlisted candidates will be contacted.
- Please visit <http://www.csrsr.ncu.edu.tw> for more information about CSRSR.
