A request, a schedule and a budget estimate should be included. For 2016, two summer schools will probably be run by the SC, the one in connection with the Congress and one in connection with the Asian Conference on Remote Sensing. The relationship between SS organised by the SC and other summer schools supported by ISPRS and TIF (e.g. the 3S school and the IEEE/ISPRS summer school to be held in Brazil) was also discussed.

He requested Cnl review the benefits for StMs, e.g. Summer Schools involving StM employees, ISO certification, discounted registration at ISPRS events, other financial benefits when participating in ISPRS events. The approach to marketing should be directed towards the needs of StMs.
