An exception will be made for the Congress in Prague, for which the publication date will be negotiated between Copernicus and LH.
   4.3. Scientific Initiatives
   Cnl concerned itself with the efficiency of the initiatives and requested a review of the reports submitted from funded projects by ISAC. ISACs review voiced positive tendencies and recommended the continuation of the SIs, including a few recommendations to ensure the supported projects are more relevant for ISPRS and the results are made more visible and
are accessible for the community. Based on the results it is planned to continue issuing calls for the SI in odd years, subject to availability of resources.
