Minutes

1. Opening Remarks
CH welcomed all participants and thanked them for attending.

2. Approval of Agenda
The Agenda was approved.

3. Review of previous meetings

3.1. Approval of JM minutes of July 20, 2016 (Prague)
The JM Minutes from July 20, 2016 were approved.

3.2. Review of TCP Action List
The action list was updated.

4. Science and Policy Matters

4.1. Results from CM on important Science and Policy Matters
ISPRS slides are on the drop box and can be used for the promotion of ISPRS whenever suitable. TCs are asked to forward them to event organisers so that these can present a selection from the ISPRS slides during the opening ceremony of their event.

A committee was formed in July 2016 after the Prague Congress to revise the reviewing process and further develop it for future events. The committee is led by NP, members are LH, NP, SZ, FR, and SH. George Vosselman and Uwe Stilla, and possibly other members, are to be approached to join the committee. NP was asked to initiate formation of the committee.

NP explained the reviewing process planned for the next Congress: two submission types should be offered: (a) extended abstracts followed by final papers, and (b) full papers. It is proposed to use the tool Easy Chair or ConfTool.
NP suggested developing an ISPRS knowledge portal with videos or audios of oral presentations for open access, also for the use of those who cannot attend events.

4.2. Scientific Initiative
The call for Scientific Initiatives was issued on September 19, 2016. Members of WGs, with approval from WG officers, can apply for projects which will advance ISPRS, by January 1, 2017. TCPs are to evaluate the projects and then submit recommendations to the Treasurer, by January 16, 2017. Decisions will be made by a group of Council (SL, CT, NP) and will be announced on January 23, with funding available from February 1, 2017.

5. TC Composition and Work Plan

5.1. Proposed WGs

5.1.1. WG Officers, ToRs and relation to Resolutions
TCPs presented their planned commissions and WG structures. Overlaps and co-operations were discussed in relation to ToR. Necessary changes were discussed and will be amended. Based on the presentations and the comments received by ISAC, Cnl approved the proposals of the TCPs.
The discussion about new WG officers confirmed that ISPRS should always focus on good international distribution of WG officers. It was agreed that a single person may only hold one position.

5.1.2. WG Officer Commissioning Forms
The commissioning forms for WG Officers are to be completed and it is to be ensured that officers are aware of their responsibilities, in particular with respect to reviewing as well as fast and reliable communication.

WH presented the status of the proposed programme for the GSW 2017. It was discussed in detail with all TCPs. Most interested WGs already submitted their plans to organize a WS during GSW 2017 via the respective TCPs, some changes to the well developed programme may still occur.
