

Joseph Xingang, Hong Kong, China
TIF Travel Grant Awardee
ISPRS Technical Commission II, Toronto, Canada
6-8 October 2014

Dear Prof. Madden,

Thanks a lot for the travel grant from The ISPRS Foundation. With the funding support, I was able to follow my supervisor Prof. Anthony Yeh to attend the conference. I have presented our paper titled “The Uncertain Geographic Context Problem in Identifying Activity Centers Using Mobile Phone Positioning Data and Point of Interest Data” and got some feedbacks to improve our paper. The conference is related to my research. I have learned more about the frontier of my research topic. I have met some big professors and talked with them. It is a great conference, and the experience is very informative and inspiring. I am very grateful to The ISPRS Foundation for the travel grant support. In the future, I hope one day I may also donate some money to help younger researchers.

Finally, I have attached a photo for your kind reference.

Thanks
Best Regards,
Joseph Xingang
