

### **ISPRS SC Webinar Series 2023 on 29<sup>th</sup> November, 2023**

The ISPRS Student Consortium (ISPRS SC) hosted a successful webinar on “Large-Scale Individual Tree Mapping”, featuring A/Prof Martin Brandt from the University of Copenhagen on 29<sup>th</sup> November, 2023. The event garnered significant interest, with 35 enthusiastic participants actively engaging in the session.

A/Prof Martin Brandt brought his extensive expertise to the webinar, providing valuable insights into the intricacies of large-scale individual tree mapping. His engaging presentation captivated the audience and set the stage for a dynamic and informative discussion. The success of the webinar was further evident during the interactive Q&A session, where participants actively contributed by posing insightful questions. A/Prof Brandt's willingness to engage with the audience and address their queries fostered a collaborative atmosphere, enhancing the overall learning experience.

In conclusion, the ISPRS Student Consortium's webinar on Large-Scale Individual Tree Mapping featuring A/Prof Martin Brandt was a resounding success. The active participation, positive feedback, and valuable learning outcomes underscore the Consortium's commitment to providing quality educational opportunities for its members. This is the last ISPRS SC Webinar series for the year 2023 and we look forward to organizing more such events that contribute to the professional development of our community.
