

Sincere Thanks to TIF

I am grateful to present my research paper at the prestigious ISPRS Technical Commission IV Symposium 2024, held in Fremantle, Perth, Australia, from October 22 to 25, 2024. The symposium gathered expertise and renowned researchers across the globe to exhibit their research in Sensor fusion, Remote sensing, Artificial Intelligence and Machine learning in Geo-spatial science.

I sincerely thank the "ISPRS TIF Grants committee" for their generous financial support. Engaging with the global scientific community at this event has been an incredibly enriching experience. It provided a platform to exchange insights from my work and gain knowledge from the innovative research presented by my peers.

This symposium has been a significant milestone in my academic journey, and I look forward to future opportunities to engage with the ISPRS organization.
