

## Book Review

### Advances in Spatial Analysis and Decision Making

Publication Date: November 2003

Li, Z. / Zhou, Q. / Kainz, W. (eds): *Advances in Spatial Analysis and Decision Making - Proceedings of the ISPRS Workshop on Spatial Analysis and Decision Making, Hong Kong, 3-5 December 2003* 2003, 25 cm, 332 pp., ISBN: 90 5809 652 1

International Society for Photogrammetry and Remote Sensing/Scripts/cgiBalkema.exe/serie?SerNo=58  
EURO 89.00 / \$ 99.00

A collection of peer-reviewed articles presented at ISPRS Workshop on Spatial Analysis and Decision Making. It covers topics such as image-based spatial analysis and decision making, 3-D modelling and analysis, general spatial analysis methodology, spatio-temporal analysis methodology, Web and mobile-based spatial analysis, knowledge-based systems, integrated systems, visualisation and representation methodology, and some application systems.

Advances in Spatial Analysis and Decision Making contributes to the development and validation of end-to-end processing systems for spe-

cific applications, making use of a range of imaging systems, a range of components from the spatial information sciences and paying particular attention to techniques for the delivery and presentation of information.

The first book in the newly launched ISPRS Book Series. The ISPRS Book Series is intended to comprise high quality scientific contributions in the Photogrammetry, remote sensing and spatial information sciences, with the aim of promoting the quality and range of the scientific output of ISPRS.
