Digital Humanities Job Advertisement

1 Post Doc in Digital Humanities (or Geomatics). 3D Modelling of the Undeciphered Aegean Inscriptions (Cretan Hieroglyphic, Linear A and Cypro-Minoan): Image Acquisition and Creation of Digital Corpus

The ERC project INSCRIBE (Invention of Scripts and their Beginnings), based at the University of Bologna, Italy, is delighted to advertise a new position in Digital Humanities, initially for 12 months. The contract is renewable for up to three years in total.

The deadline for applications is **20 March 2019, 1pm**.

You can apply here: [https://site.unibo.it/inscribe/en/jobs](https://site.unibo.it/inscribe/en/jobs)

Or follow the direct links, in English and Italian, respectively:

NB: the salary is not subject to full taxation rates.

The successful candidate will be responsible for the creation of 3D models of the undeciphered Aegean inscriptions (Cretan Hieroglyphic, Linear A and Cypro-Minoan), which date to the second millennium B.C. Candidates are expected to have advanced expertise in laser scanning techniques, RTI, and photogrammetry. The goal is the creation of a database where the 3D models will be complemented by a contextual interactive apparatus, offering a suite of additional tags, links and nodes, aimed at embedding the inscribed objects in their time, place and use. The appointed post doc in Digital Humanities will join the INSCRIBE team which comprises 4 archaeologists, 4 linguists, 1 anthropologist, 1 cognitive psychologist and 7 data scientists, all committed to studying the invention of writing in the world from a suite of combined novel methodologies.

For any further information, do not hesitate to contact the Principal Investigator of INSCRIBE, Professor Silvia Ferrara: [s.ferrara@unibo.it](mailto:s.ferrara@unibo.it)
